

Agenda

UHIP-GC Multiple-Drug Resistant Organism (MDRO) Control and Education

03/09/2023 @ 12:00-1:00

Mission:

Protect the residents of Utah from multiple-drug resistant (MDRO) infections through prompt identification and response to MDRO outbreaks in coordination with education for various healthcare facility settings (LTACH, LTCF, Dialysis, Outpatient, Acute Care Hospitals).

Vision:

The State of Utah will lead the national efforts to eliminate multidrug-resistant organism infections. Utah strives to reduce the amount of multidrug-resistant organisms in healthcare settings while also improving our detection and response.

Goal:

Improve detection, response, and education of multidrug-resistant organisms (MDRO) through collaboration with healthcare facilities to create additional educational opportunities, enhance awareness, address gaps and implement standardized MDRO focused infection prevention and control practices throughout the state of Utah.

Time	Topic	Lead/Notes
Introductions		
12:00-12:05	Introductions <ul style="list-style-type: none"> • Subcommittee Chair: Elena Snelten • Additional representation 	Becky Ess
MDRO Control and Education Mission, Vision, and Goals		
12:05-12:15	Review the mission and vision statement UHIP-GC Purpose: To provide leadership and direction for healthcare-associated infection prevention and reporting activities in Utah.	Becky Ess

Action Steps/Plan		
12:15-12:40	<ol style="list-style-type: none"> 1. Bring awareness of MDROs to all healthcare settings <ol style="list-style-type: none"> a. CPO, CRO, C. auris, ... 2. Updating the interfacility transfer form <ol style="list-style-type: none"> a. Encourage use of any transfer form through training programs. Potentially use nursing schools. b. Promote interfacility communication 3. Build networking and professional relationships between ACHs, LTC, DHHS, medical training programs, and professional organizations 4. Transmission based precautions <ol style="list-style-type: none"> a. Provide education for training programs including CNA and nursing schools b. Rationale between why there are differences between precautions 5. Colonization considerations and Enhanced Barrier Precautions <ol style="list-style-type: none"> a. LTC in-service training 6. Understanding of admission practices <ol style="list-style-type: none"> a. Screening processes, surveillance 7. Disseminate MDRO guide <ol style="list-style-type: none"> a. EPA cleaning practices (MDRO guide, page 23) 	Elena Snelten
Subcommittee Outcomes		
12:40-12:50	<p>Action Plan for Control</p> <ol style="list-style-type: none"> 1. Increased compliance with transfer forms 2. Build survey to assess admission, transfer, and discharge processes 	Elena Snelten

	<ol style="list-style-type: none"> 3. Increase participation and engagement in this meeting <ol style="list-style-type: none"> a. Outpatient groups (dialysis, SDS, dental practices) 4. Promote Infection Control Assessment and Response (ICAR) in healthcare settings <p>Action Plan for Education</p> <ol style="list-style-type: none"> 5. Create needs assessment from UHIP subcommittee to identify MDRO education priorities 6. Create Train-the-trainer in-services <ol style="list-style-type: none"> a. MDRO guide b. Certificates for Quality Assurance and Performance Improvement (QAPI) 	
Situational awareness		
12:50-1:00	<p>Current State of MDROs</p> <ul style="list-style-type: none"> ● Endemic definition ● C. auris <p>MDROs in the news</p> <ul style="list-style-type: none"> ● VIM CRPA ● XDR Shigella 	Elena/Becky
Convene		
Next Meeting	<p>Every eight weeks</p> <ul style="list-style-type: none"> ● 05/04/2023 <p>Minutes will be posted to the HAI website</p> <ul style="list-style-type: none"> ● https://epi.health.utah.gov/uhip-governance-minutes/ 	Becky Ess

Meeting comments:

Joshua Mongillo (DHHS)

12:03 PM

Josh Mongillo HAI Epidemiologist DHHS

Jacob Anderson (DHHS)

12:03 PM

Jacob Anderson - HAI Epidemiologist, DHHS

Janelle Kammerman (DHHS)

12:03 PM

Janelle Kammerman HAI Project Firstline Lead DHHS

Joni Johnson

12:04 PM

Joni Johnson with St. Marks

Jeffery Rogers (DHHS)

12:04 PM

Jeff Rogers - HAI Epidemiologist, DHHS

Giulia De Vettori (DHHS)

12:05 PM

Giulia De Vettori - HAI Epidemiologist, DHHS

Linda Rider (DHHS)

12:05 PM

Linda Rider - Infection Preventionist - DHHS

Tariq Mosleh (DHHS)

12:06 PM

Tariq Mosleh. HAI antimicrobial stewardship pharmacist

Elena S. (VA, Lead IP)

12:07 PM

elena.snelten@va.gov

You

Linda Rider (DHHS)

12:11 PM

Considering education efforts with professional programs, would we want to consider adding a representative from a training program?

Jeffery Rogers (DHHS)

12:16 PM

we may also want to integrate environmental cleaning managers as a stakeholder to this group if they are not already

Linda Rider (DHHS)

12:19 PM

I like the idea of working with discharge planners and admission coordinators

Joni Johnson

12:19 PM

Multiple-Drug Resistant Organism (MDRO) Control and Education Agenda

I agree with discharge planners

Linda Rider (DHHS)

12:20 PM

In LTC, the admission coordinators often have limited healthcare experience

Joshua Mongillo (DHHS)

12:21 PM

I think it would be helpful especially for C auris where the cleaning agents may not be as well known or different from traditional CROs

Joshua Mongillo (DHHS)
